### See how you measure up

It's essential that a motorcycling suit should fit properly. If it's uncomfortably tight, it can affect concentration while riding, and the same goes if its flapping loose. Either way, it's an irritation that will take your mind off the road, and so compromise your safety.

Jackets and pants also have to sit right on the wearer. Sleeves and trouser legs should never ride up, because if they do, it's not just a safety issue - it also means you're not properly protected against the elements. That's why the cut of all BMW Motorrad suits is specially designed for motorcycling use, and why they all feature a wealth of adjustments, expandable sections and clever details.

However, the most important factor in ensuring a glove-like fit is still making sure that you get the right size. BMW Motorrad knows that riders come in all different body shapes, and so its suits are available in a choice of over 40 different sizes.

To find the one that's right for you, grab your tape measure and follow these simple instructions.

#### How to work out your size

##### (A) Height

Stand barefoot with your back to a door frame. Place a book on your head and use it to make a mark on the door frame. Measure the height from the floor to this mark.

##### (B) Chest

Take this measurement while wearing a shirt or lightweight pullover. Pass the tape measure under your arms, and take the measurement around the broadest part of the chest and over the shoulder blades.

##### (C) Waist

Measure around the shirt, just above the top of your trousers. Please ensure you are in a relaxed and natural position, and do not hold in your stomach - that way you'll ensure the trousers later sit comfortably.

##### (D) Hips

Measure the distance around the body over the hips and the fullest part of the backside.

##### (E) Outside leg

Measure the distance down the outside of your leg from the waist of your trousers to the sole of your foot.

##### (F) Inside leg / Inseam

Measure the distance down the inside of your leg, from the crotch seam to the sole of your foot.

#### IMPORTANT:

The following size tables are only for your guidance. They serve as the cut basis for this BMW Motorrad rider equipment collection and are based on body dimensions.

Unless otherwise indicated, please follow the Standard Size chart.

For new items beginning in 2014, the cuts are divided into Comfort and Regular fits. The new cuts are based on the respective area of application of the rider equipment. A reference to the corresponding measurement chart can be found under the respective piece of clothing.

BMW Boots for the most part can be sized according to your current shoe size. Use the cart above to order the proper size. For best fit, visit your BMW Motorrad Dealer.

## Glove Measurement

Women's and Men's Sizes
BMW Gloves are measured in inches, not small, medium and large. For example, the sizes are 6"-6.5" through 12"-12.5". To get the proper fit, measure your palm circumference around the knuckle area without the thumb. If the measurement is for example 9.75" go up to the next size range (10"-10.5"). For the best fit, visit your BMW Motorrad Dealer.
